Education

Computer technologies **Sep 2019 - Jun 2023**
Ukrainian State University named after Mykhailo Drahomanov, Kyiv

HTML/CSS specialist / Frontend Developer / **Jun 2022 - Jul 2024**
Java Script Developer / FullStack Developer
Genius.Space, Kyiv

Work experience

Web Development: Created websites using HTML, CSS, JavaScript, and React. The projects include interactive pages, working with APIs, and developing responsive designs, which enhanced the accessibility of web applications across different platforms.

Mobile Application Development: Developed mobile applications on React Native for both Android and iOS. One of the apps features offline access, improving the user experience in conditions of unstable internet connectivity.

GitHub Repository Management: Published projects on GitHub that showcase my skills in front-end technologies such as React and CSS frameworks (Bootstrap).

Courses: Completed online courses on the Genius.Space platform, which helped improve my practical skills.
